**\*\*NOTE:** Documentation of medical or religious exemptions not accepted. They can provide negative test results as an alternative option.

**\*\*NOTE:** We do **not** check ID with proof of vaccination.

### PROOF OF NEGATIVE TEST RESULTS

- Print or digital documentation from: Pharmacy, Laboratory, or Testing provider
- Test must be FDA approved
- Test must have been performed within 72 hours \_\_\_\_\_

**\*\*NOTE:** Rapid tests used without the supervision of a testing provider (“at home tests”) will NOT be accepted.

*Vaccine verification may not be used to discriminate based on an individual's race, national origin, religion, or age. Businesses and venues should provide reasonable accommodation for those who are unable to provide proof of vaccination due to a disability.*

**If a person declares or is perceived to have a disability and cannot provide proof of vaccine:**

- verbal communication of their vaccination status can be accepted instead of physical proof of vaccination.

**For people with disabilities who are unvaccinated:**

- a verbal declaration that they have received a negative COVID test within the past 72 hour should be accepted

**\*\*NOTE:** Remember, businesses should not question anyone's disability nor must they investigate the validity of a customer's stated exemption.

**Do your best to enforce this order but DNDA and our staff will not be held accountable by King County for customer's behavior.**
